

Jumping Julia Puzzles!

Help Julia jump from START to GOAL!

The number on each square tells you how many squares to jump.
You can only jump left, right, up, or down (not diagonal).

START 2	1	3	3
2	1	3	1
2	2	2	2
1	3	2	★

START 1	2	1	3
3	1	2	1
1	3	1	2
2	1	3	★

START 3	1	2	1
1	2	3	2
2	1	1	3
1	2	1	★

START 2	3	1	2
1	1	2	3
3	2	1	1
2	1	2	★

Draw your path with arrows! → ← ↑ ↓

Think About It!

1. Look at Puzzle 1.

- a) Circle all the squares Julia can jump to from START.
- b) How many moves does it take to reach GOAL? _____

2. Drawing Time!

Draw a 4×4 grid below and create your own jumping puzzle. Make sure there is a way to get from START to GOAL!

3. True or False?

- a) If a square has the number 2, you can jump 2 squares in any direction. _____
- b) You can jump diagonally (corner to corner). _____
- c) The GOAL square always has a star. _____

4. Challenge!

Can you find a puzzle that has NO solution? Draw it below!

5. Bonus Question:

If you are on a square with the number 3, how many different squares might you be able to jump to? (Remember: up, down, left, or right!)

Answer: _____
